The recycling process of glass is a perfect circle and a clear example of sustainability.

GO GREEN 

WE CARE  
CLOSE THE LOOP 

ECO-FRIENDLY 

ENVIRONMENT-FRIENDLY 
RECYCLE 

The saved energy in recycling 3 bottles is enough to:

Charge a smartphone battery for one year.

Maintain a low consumption light bulb on for 9 days.

It is equivalent to the energy needed for 3 cycles of a washing machine.
